FROM PASTOR MARK

Having faith in God is a bit like being a
squirrel glider. What? Yes! A squirrel glider
is actually a member of the opossum family,
and the glider leaps from tree to tree with no
specific landing place in mind. Instead, it simply
trusts that branches will be there when it lands.

Our church family has trusted since the
beginning that God has the next branch ready
for the needs and ministry of this congregation.

When we have our family meeting the end
of January, we will prayerfully make choices
about things we perhaps cannot see in our
future, but we will hold onto the faith that God
has that sturdy branch ready for our next leap.

I would like to say..."let's keep on leaping
as the squirrel gliders, with energy, joy, and
with the faith that God's branch is there".
